

How to Reissue Credit

Step-by-Step

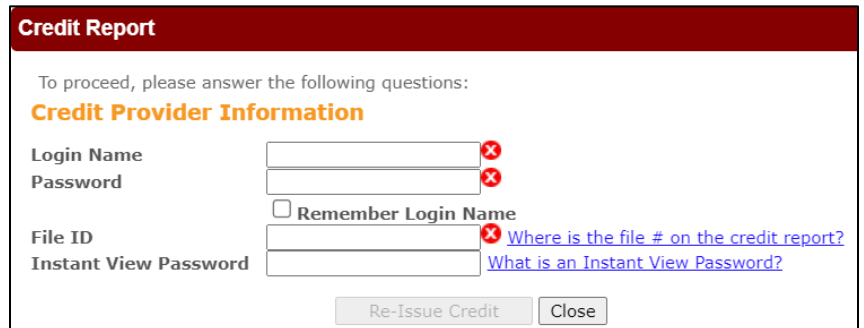

1. Go to Pricing > Applications:

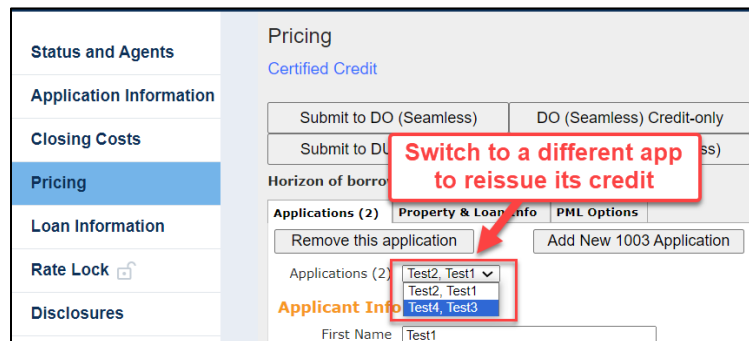

2. Scroll down and select “Re-Issue Credit Report”, select the credit provider, and hit “Re-Issue Credit”:

3. Enter your credit credentials. Your credit provider may have an “Instant View Password”, which is not required.

4. **If your loan has multiple applications,** switch to another application and repeat Steps 2-3 for each application:

The screenshot shows the 'Pricing' section of the BluePoint Mortgage system. On the left is a navigation menu with 'Pricing' selected. The main area is titled 'Pricing' and 'Certified Credit'. It contains several buttons: 'Submit to DO (Seamless)', 'DO (Seamless) Credit-only', 'Submit to DU...', and 'Remove this application'. A red box highlights a dropdown menu with three options: 'Test2, Test1', 'Test2, Test1', and 'Test4, Test3'. A red arrow points from a text box above to the dropdown menu. The text box contains the instruction: 'Switch to a different app to reissue its credit'. Below the dropdown is the 'Applicant Info' section with a 'First Name' field containing 'Test1'.
