Acreage	Property up to 2-acres, not meeting the rural definition, eligible
Max Cash-In-Hand	LTV ≥ 65% - \$500,000 LTV < 65% - \$1,000,000 Total equity withdrawn cannot exceed these limits (Not applicable to Delayed Financing transactions)
Appraisals	FNMA Form 1004, 1025, 1073 with interior/exterior inspection. Appraisal review product required unless 2nd appraisal obtained. 2 nd Appraisal required for loans > \$2,000,000.

Income Requirements

Income

Long-Term Rental Documentation and DSCR Calculation

- Purchase Transactions:
 - Monthly Gross Rents are the monthly rents established on FNMA Form 1007 or 1025 reflecting long term market rents.
 - If the subject property is currently tenant occupied, the 1007 or 1025 must reflect the current monthly rent.
 - A vacant or unleased property is allowed without LTV restriction.
- Refinance Transactions:
 - Required documentation:
 - FNMA Form 1007 or 1025 reflecting long-term market rents, and lease agreement.
 - If the lease has converted to month-to-month, then provide most recent two (2) months proof of receipt to evidence continuance of lease. If unable to provide evidence of receipt, the unit will be treated as vacant and subject to the following:
 - LTV/CLTV limits: Lesser of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan balance matrix.
 - Monthly Gross Rents are determined by using the actual lease amount or estimated market rent from 1007/1025 as follows:
 - If using the lower of the actual lease amount or estimated market rent, nothing further is required.
 - If using a higher actual lease amount, evidence of 2-months of receipt is required, and the lease amount must be within 120% of the estimated market rent from the 1007/1025. If the actual rent exceeds the estimated market rent by more than 120%, the rents are capped at 120%.
 - If using a higher estimated market rent from 1007/1025, it must be within 120% of the lease amount. If the estimated market rent exceeds the lease amount by more than 120%, the estimated market rent is capped at 120%.
 - A vacant or unleased property is allowed subject to the following:
 - LTV/CLTV limits: Lesser of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan balance matrix.

DSCR Calculation:

- Debt Service Coverage Ratio is the Monthly Gross Rents divided by the PITIA of the subject property. See this matrix for required Debt Service Coverage Ratios.
- Gross rents divided by PITIA = DSCR

Short-Term Rental (e.g., Airbnb, VRBO, FlipKey) Documentation and DSCR Calculation

Short-term rentals are properties which are leased on a nightly, weekly, monthly, or seasonal basis.

- **Short-Term Rental Income - Purchase and Refinance Transactions:**
 - LTV is lesser of 75% for a purchase and 70% for a refinance, or the LTV based upon the DSCR/FICO/Loan balance
 - DSCR Calculation:
 - Monthly gross rents based upon a 12-month average to account for seasonality required.
 - Gross rents reduced by 20% to reflect extraordinary costs (i.e., advertising, furnishings, cleaning) associated with operating short-term rental property compared to non-short term property. If the rental documentation referenced below includes expenses, actual expenses should be compared to the 20% expense factor. If actual expenses are less than 20%, a minimum 20% expense factor is required to be utilized. If actual expense exceeds 20%, the actual expense factor should be used.
 - (Gross Rents * .80) divided by PITIA = DSCR.
